INTERACTIVE OBJECTS

NEW INTERACTIVE OBJECT

The Sims 4 Cool Kitchen Stuff includes a new interactive object: Ice Cream Machine. This object adds additional gameplay to the game, and includes 30 ice cream recipes, toppings, and garnishes. Some of the ice cream flavors even have special effects on your Sim when consumed.

- Completing the “Master Chef” Aspiration yields high quality ice cream that never spoils
- If you have the Get To Work Expansion, you can sell individual bowls and cones in your Retail Store.
- Sims will gain weight when eating too much ice cream.

Ice Cream is crafted in the ice cream machine, and will automatically be placed in your Sim’s inventory. You can then place the ice cream carton onto any surface and enjoy the sweet goodness by grabbing a cone or bowl of ice cream. There are 6 servings per carton. Brain freeze and falling cones included.
All ice cream flavors provide yummy moodlets for your Sims, but some flavors give Sims “a little extra”. Side effects include, but are not limited to, PlantSim-ism, Increased Weight Loss, Dragon Breath, and Chills. Sims can even unlock a Mischievous interaction by eating the “Chilling Mocha” flavored ice cream.

Ice cream can be eaten as is straight from the container, or topped off with any of 18 toppings and garnish. Feel free to mix and match any of the following toppings/garnishes, with any of the following ice cream flavors, all by clicking the ice cream carton.
